Dear ADMA scholarship committee,

Thank you very much for awarding me this year's scholarship. This will help me to pay for my airframe and powerplant testing fees in spring 2014 when I finish my course work. The remaining funds will allow me to fund tuition that is not covered by my financial aid. This organization is making a huge difference in the lives of many aspiring aircraft mechanics and pilots by helping offset the high costs of college.

Currently I am a senior pursuing my Bachelor's of Science in Aviation Maintenance at Western Michigan University. This degree will enable me to pursue my lifetime career goal of becoming a director of maintenance for a corporate flight department. I have been very fortunate to work at Duncan Aviation as an intern in their interior and airframe departments. This organization took me under their wing and taught me a lot. I feel that the ADMA has helped me out as well, financially by alleviating the burden of debt.

Thank you very much,
Cameron Weld.
