

Dear Scholarship Committee,

I send you all, my sincere gratitude for selecting me to receive this prestigious award. I can't even begin to describe in words, with this short letter, exactly how grateful I am to be a recipient. I appreciate that you agreed to invest into my future. These funds are going to help substantially, in my journey of becoming a professional pilot. I can assure you that this award will not only be beneficial towards my future, but also to society as a whole.

As we all know, flight training isn't cheap. The ADMA scholarship gave me the opportunity to excel at the most of my potential. Due to trouble with finances, my training could have come to a screeching halt, but the funds granted by ADMA will significantly put a positive impact in the progression of my flight training. I plan on using the funds for my commercial multi-engine. Immediately after I plan on getting my CFI, CFII, and MEI. Once I have the hours and experience I need my dream is to eventually fly for Southwest airlines.

Again, I can't thank ADMA enough. This is truly a blessing and I could be more excited to pursue my dreams, in hopes to one day make my office high in the sky.

Sincerely,

Justus Thompson, Embry-Riddle Aeronautical University
